THE WHIG STANDARD

Fing of the free, thy folds shell fly. The sign of hope and triumph nigh."

FOR PRESIDENT,

HENRY CLAY. FOR VICE PRESIDENT,

THEODORE FRELINGHUYSEN

WASHINGTON.

SATURDAY EVENING, OCT'R 12, 1844.

HOW ARE YOU NOW, CAPT. TYLER! Several gentlemen, from different sections of the country, called on Capt. Tyler at the White House on Thursday evening, and found His Accidency in very different spirits from those which had made him sombre and sad all the day. He that he will have to fumble a long time in his informed one of them that he felt remarkably well, for he had just received the news of the cient evidence to procure his certificate of elecelection of his particular friend, Thompson, as Governor of New Jersey by two or three thousand votes majority! In addition, he said, Pennsylvania was going for the "Republican Party" handsomely. Ohio would follow suit, and the 212; in Knox, 203; in Licking, 217. The mawhole country was going with a rush against jority for Tod, the Locofoco candidate for Gover-Clay!

Pray how do you feel now, Captain! Have you heard that gallant and glorious New Jersey repudiates your very particular friend, Thompson, the brother-in-law of Capt. Stockton, that other very particular friend of yours? Where are your numerous friends in New Jersey, led on by Stockton, Thompson, Green, and Zabriskie! And echo answers, with the Captain, where! Where are the fruits of the great Tyler and Locofoco coalition in New Jersey ?

But how cruel we are to thus disturb the Captain's reverie! We ought, perhaps, to let him dream on and hope on until the 4th of March next, and then, if he will, pass on quietly, and between two days, to his retirement at Williams burg, there to spend the remainder of his days in the enjoyment of such remorse as may visit him.

THE ELECTIONS.

The cheering returns from the State elections in New Jersey, Pennsylvania, Ohio, and Georgiaplace the success of the Whigs in the Presidential contest beyond all controversy. If the result of these skirmishes had been different-if the Locofocos had carried Pennsylvania by anything approaching to their contemplated majority, they would then have struggled hard and died hard upon the great field for the Presidency. But defeated in New Jersey, Ohic, and Georgia, and probably in Pennsylvania, they will find great d fliculty in rallying their forces in November.

ARKANSAS.

An election in this State was held on the 7th instant for a Governor, one member of Congress, and Legislature. The candidates for Governor are Dr. Gibson, (Whig,) and we believe General Drew, (Loco.) There is a General Byrd likewise running on his own hook. The candidates for Congress are David Walker (Whig) and Daniel J. Chapman (Loco.) Local questions appear to enter largely into the canvass.

CONNECTICUT.

The Whig gain in the town elections, which took place a few days ago in this State, is 17 towns out of 65 heard from over the vote of last spring.

MISSISSIPPI.

The whigs of Eastern Mississippi, and some of the bordering counties of Alabama, held a Mass Convention at the White Sulphur Springs a few days ago. From three to four thousand ardent and enthusiastic whigs were present. R. McElroy, Esq., acted as President of the day. The discussion was opened by the the Hon. Daniel Mays, of Jackson, Miss., in a masterly speech on the Tariff. He was followed by the Hon. D. D. Shaddock, C. C. Langdon, Esq., of the Mobile Advertiser, and Capt. P. B. Stark, one of the whig electors for Mississippi. The speaking was kept up until nearly 3 o'clock in the morning-a pretty strong proof of the enthusiasm of the multitude. The next day, Wm. Yerger, Esq., and Gen. Henry, addressed the crowd. The Convention then dispersed with repeated cheers for Clay and Frelinghuysen.

MASSACHUSETTS .- Hon. Charles Hudson, of the Vth Congressional District, and Hon. Julius Rockwell, of the VIIth, have been unanimously by George D. Dunn, Esq., Dr. Martin, of Tennominated for re-election, by convention of their respective districts.

Goop,-A Loco editor in Tennessee calls the tariff "a machine by which one American supports another American." His Whig neighbor immediately responded, that " Loco free trade is a machine by which one American starves another American, so as to support English manufactures."

HON. ANDREW STEWART.

It has afforded much gratification to the friends of Mr. Stewart, residing in this District, to find that he has been re-elected a member of the Pennsylvania delegation, to represent the XVIIIth District of the Keystone State in the ensuing Congress. His long and valuable services, and his able and untiring advocacy of the American system of protective industry, have given to the name of Andrew Stewart a celebrity throughout the Union, which every impartial or liberal mind will readily acknowledge. The regular correspondent of the Baltimore Clipper truly says :

"The people of this District, generally, are much gratified to hear of Mr. Andrew Stewart's election for the district including Greene, Fay-ette, and Somerset counties, in Pennsylvania. Mr. Stewart is a warm friend to the District, and an able advocate of the tariff. No member of Congress is more thoroughly acquainted with that important question, in all its aspects and bearings; and the re-election of such a man is hailed with pleasure by the Whige in general, and of this District in particular."

McNULTY'S BOAST.

The present blustering Locofoco Clerk of the House of Representatives, C. J. McNulty, ran for Congress at the recent election in Ohio in a decided Locofoco district, and yet was defeated by a Whig. We heard, a month since, that McNulty had written to his Locofoco brethren in this city that he had polled his entire district, and then had the evidence of his election, by 400 majority, in his breeches pocket. We are inclined to think breeches pocket, before he can find there suffition with Ohio's great seal appended thereto. In the three counties composing his district he ran behind his party's ticket, (according to the returns in the Baltimore Sun,) as follows: In Franklin, nor, in the district is 523, and yet Delano, Whig, beats McNulty, Locofoco, for Congress 109 !

THE EMPIRE CLUB.

In noticing, a few days ago, the resolution passed by the New York Empire Club of Locofoco ruffians, to go into New Jersey and attend the polis to detect illegal voting, we said that we should wait with some impatience to learn what kind of reception the Jersey Blues would give them. The Tribune of vesterday says:

"The Whigs of New Jersey tender the compliments of the season to the Empire Club Committees, kindly sent over to watch their polls, and keep out illegal votes. When sufficiently rested from their arduous labors, the Jersey Whigs would like a report from the Empires as to the success of their patriotic exertions.

From the Detroit Daily Advertiser. THE COALITION CONFIRMED.

We have ample confirmation of the nomination of James G. Birney for Representative by the Locofocos of Saginaw county, and that it was done with his consent and approbation, previously obtained. Both are established facts.

1st. The North Star, of October 3d, published at Saginaw, now before us, contains the official proceedings of the Locofoco County Convention, signed "A. Miller, Chairman," and "T. M. Waters, Secretary." These proceedings give the ticket nominated, all of them Locofocos, and at the head, " for Representative, James G. Birney."
Among the other nominees are Gardner D. Williams, for Associate Judge, W. L. P. Little, for County Clerk, Albert Miller, for Judge of Pro-

bate, all thorough-going Locofocos.

2d. We have also the following extract from a business letter received by a mercantile firm in this city from a gentleman of the first respectability in Saginaw :

"James G. Birney is nominated by the Demo

crats or Locos of this County for their candidate in the ensuing election for the Legislature. Mr. Birney solicited the nomination, and when the meeting of delegates was convened, the gentleman to whom he had stated his desire for such nomination, stated to the meeting that 'Mr. Birnev had told him he was a Democrat in principle, and would, if elected, support Democratic men and measures.

Upon this representation of one of the most influential and candid Democrats in the county. Mr. Birney received the nomination of the party. Consistency, thou art a jewel.' The President (that is to be) allows himself to become the body of 'the embodiment,' of that party who cries out Annexation and Dorrism. We can understand from what motive and through what influence his abuse has been heaped upon Clay. I hope the good cause prospers with you—we are all alive

Here are the facts. They are plain and irre-Mr. Birney is shown to be coalescing with the Locofocos for a seat in the State Legislature, and promising them, if elected, to support Democratic men and measures. Nay, he authorizes a Locofoco to say in the Locofoco Convention, that he is "a Democrat" in principle.

A New Synonyme.-John Quincy Adams, in his recent address, after proving several of Gen. Jackson's statements false, calls the old Hero's assertions a " Waterloo victory over truth."

There was a mass meeting, procession, and barbecue at Terre Haute, Indiana, on the 28th ult, in which, notwithstanding the weather was unpropitious, about ten thousand Whigs participated. The meeting was presided over by the Hon. R. W. Thompson. Speeches were made nessee, and E. W. McGaughey, Esq.

The amount of produce exported from Pittsburg eastwardly, by way of the Pennsylvania canals, and the amount of merchandize imported into Pittsburg through the same channel, during the month of September, show a very favorable state of trade. The increase, compared with the trade of the same month last year, is nearly one year. hundred per cent.

The term of the Hon. WILLIAM L. DAYTON, U. S. Senator, elected in the place of Mr. Southard, will expire next March. He will, of course, be re-elected; he is an honor to the State which he represents, and the body in which he acts.

PENNSYLVANIA.

We have compared our list with the best information received, though there must be many inaccuracies. We venture to assert, however, that we are as near the truth as any of our contemporaries.

OHIO.

The election in this State, which came off on Tuesday last, was for Governor, members of Congress, and the Legislature. In 1842, the Democrats elected their Governor by a majority of 3,443, and by which we shall make our comparison. The abolition vote was then 5,405, of which we shall take no account, as the probability is that it will be increased this election.

The returns thus far received are of the most cheering character. Bartley, the Whig candidate for Governor, will receive a large majority.

The following are the reported majorities:

GEORGIA.

The returns from Georgia received by last evening's mail indicate that she too will be found again arrayed under the banner of the Whig party at the present election. The election is for members of Congress, by districts, being the first which has occurred under the new law-she heretofore voting by general ticket. The vote cast appears to be small, and slightly decreases the Whig majority given at the Congressional election in 1843, when Messrs Stephens and Chappell were elected to fill vacancies-taking the highest Whig over the highest Loco-by 3,050. and by which we make our comparison. We shall endeavor by our next to obtain the list of the counties, by districts, and publish the returns as they are received in that way, in order to show each candidate's majority:

They tell a story on General Cass which is not only good, but, what is much better, true The General was making a speech in Columbus, Ohio, a few days ago, when he took occasion to vent his indignation at Whig emblems, poles, flage, coons, and all. While he was expressing contempt for all such insults to the understandings of the people, two large wagon loads of hickory passed before him in the State house yard, covered with hickory bushes and little muslin flags. Mistaking them for Whig devices, he pointed to them, and pronounced the spectacle disgraceful in the last degree. Said he, "I have been among Indians, but I never saw anything so degrading and contemptible even among them.

e General's face must have been unusually interesting when he was informed that these was Louisville Journal.

THE NEWSPAPER PRESS IN ENGLAND .- In Burn's Commercial Glance, the following statistics are given of newspapers in Great Britain, for 1843. The whole number published is 447 .-The stamps consumed by them in that year were 60,592,001. Their proportions are as follows: follows: 31,692,062 79 London newspapers 212 English provincial 17,058,056 339,500 5,027,589 69 Scotch 79 Irish 6,474,794 447 60,592,001

WHIGS OF '76 AND OF '44.—Yesterday morning on the opening of the polls we found all our old Revolutionary Pensioners on the ground eager to put in the first vote for "farmer Strat-It was agreed to give the honor to the oldest man present; who was ascertained to be John E. Smith, aged 94. He remarked as his vote went into the box, that "he hoped to live to vote again in November." The next who voted was Aaron King, aged 87, and the next Joseph Baldwin, aged 84, and they were tollowed by three others whose age averaged about 80. It was encouraging to us to see the interest which these soldiers of the Revolution took in the contest, showing that the spirit which animated them in '76 still animates them, and should animate every true Whig in the Union.—N. WATERMELON SYRUP -Uriah Johnson, a citizen of Carolina, has extracted from watermelons a syrup equal to molasses, which would produce sugar of good quality. The syrup is obtained by boiling the juice three hours in a common iron pot, eight gallons making one gallon of excellent syrup. He thinks one acre of common sand hill land would produce watermelons enough to make 200 gallons of syrup equal to the best molasses. The refuse of the melon makes capital food for hogs, and thus nothing is lost.

SUMMER SAILING .- The New York Commercial says : " The two ships, Washington and Hellespont, announced to-day among our arrivals, fell in company in lat. 24 deg. long 30 deg., and sailed side by side 2,400 miles-talking from deck to deck, every day. What a relief to the monotony of a sea voyage!"

SMUGGLING.—A large seizure of tea, tobacco, &c., was made at Middle Musquodobit, near Halifax, Nova Scotia, by the revenue officers, during the week before last. THE TAHITI AFFAIR —A letter from Paris says: "It is now well and distinctly understood that the Tahiti affair is settled by means of mutual concessions. Mr. Pritchard and M. d'Aubigny are both to be removed to other stations. French journals, with few exceptions, crow over England on account of the manner in which Lord Aberdeen has carried into effect the determination of Sir Robert Peel to have "ample and complete satisfaction." M. d'Aubigny is neither recalled, nor are his proceedings disavowed. All the punishment he is to receive is a removal to another, and may be a better, station.

WHOLESALE PLAGIARISM .- The Boston Daily Advertiser says that in the July number, 1844, of the London Monthly Review is an article entitled "Burial Practices." It contains thirty-three paragraphs. Every one of these is taken substantially, and by far the greater part of them verbatim et literatim, from the articles in the Christian Examiner Nos. 107 and 108, published in November, 1841, and January, 1842. The article in the London Monthly purports to be an original one. and by an original writer in the Review, and there is not the slightest recognition nor acknowledgement of its Yankee origin,
